Awards: Lean Hero ME (Q2 2025) | Served users across power plants: 700+

CV Last update on 2026-11-08

Professional Summary:

Project & Digital Delivery Lead | Industrial, Infrastructure & Digital Projects

Delivering projects for 700+ users across multi-site environments.

Project & Digital Delivery Lead with 20+ years of experience across industrial projects, quality, planning, and enterprise IT. Delivers infrastructure and digital projects for 700+ users, coordinating teams, vendors, and stakeholders from planning to handover, and serves as the site Cybersecurity Ambassador.

Earlier experience in document control, quality, and planning provides the operational foundation for practical, well-governed delivery, supported by Microsoft 365 and Power Platform solutions and responsible AI adoption.

Supported AI awareness, digital adoption, and end-user enablement through coaching, knowledge sharing, and practical guidance on Microsoft technologies.

Core Capabilities

- AI Adoption & Change Enablement
- User Enablement & Coaching
- AI Use-Case Identification
- Microsoft 365 & SharePoint
- Power Apps & Power Automate
- Business Process Automation
- Power BI & Data Analytics
- IT Infrastructure & Operations
- Azure Fundamentals & Cloud Adoption
- Cybersecurity, Data Privacy & Governance
- Project Coordination & Delivery

I focus on delivering projects and digital solutions that are secure, reliable, and well governed, supporting business continuity and operational excellence.

Open to collaboration on project delivery, digital transformation, business automation, and data-driven initiatives.

AI & Generative AI Experience

- Daily user of Microsoft Copilot for research, content generation, summarization, meeting preparation, and productivity improvement.
- Designed and tested business-focused prompts to improve operational efficiency and decision support.

- Applied Generative AI tools to accelerate documentation, user support, communication, and process optimization.
- Exploring AI agents, copilots, and automation workflows integrated with Microsoft 365 ecosystem.

Additional Strengths:

- Business-friendly communication across technical and non-technical teams.
- Hands-on, self-driven approach to experimentation, implementation, and continuous learning.
- Experience supporting users from different functions and operational backgrounds.
- Strong foundation in secure and responsible technology adoption.

Education:

- **Diploma of Technician Commerce** – 2001
- **Institute of Computer Science** – 2003-2004 | Graduation: Excellence

Language:

- Arabic (Fluent)
- English (B1)
- German (A1)

Certifications Highlights:

- ISO 27001:2022 Lead Auditor Information Security Management System – 2026
- Agile Product Owner Role: Techniques & Foundations – 2026
- Refreshing Integrated Management System ISO 9001:2015:2016 by QI TUV Nord
- PMP Traditional and PMI – Agile Certified Practitioner – Training completed, 2025
- IPMA Level D (PM Professional Basic/Advanced by Siemens Energy) – 2024:2025
- ITIL v4 Service Management Foundation Certificate – 2024
- AZ-900 Microsoft Azure Fundamentals – Training completed, 2024
- AZ-104 Microsoft Azure Administrator – Training completed, 2024
- Linux Administration Bootcamp – 2024
- Certified Cybersecurity – Fundamentals – ISC2 Candidate (training completed), 2023
- Programming Course: One Million Final Phase (Full Stack) – Udacity, 2019
- Self-based Online Courses: HTML, CSS, PHP, JavaScript, SQL – 2017
- JOTUN Protective Coating Paint School – Attendance

- Quality Control Management – Internal Audit Course – 2014-2016
- NDE Methods: PT, MT, RT, UT, VT – 2015:2018
- Auditor/Lead Auditor Quality Management System ISO 9001:2015:2016 by QI Institute

---

Technologies and Tools:

AI and Automation:

- Omnivise Image Analytics
- Power Automate
- Power Automate Desktop
- UiPath fundamentals
- process automation

Low-Code and Collaboration:

- Power Apps
- SharePoint
- Teams
- Outlook
- Planner
- Microsoft 365

Cloud, Data and Reporting:

- Azure fundamentals
- Power Query
- Snowflake introduction
- Power BI
- Tableau

Programming and Web:

- Python
- JavaScript
- Git
- VBA
- PHP
- GitHub
- HTML
- MySQL
- CSS
- PostgreSQL

Infrastructure and Security:

- Windows
- Linux
- Networking
- cybersecurity awareness
- vulnerability management
- information security

Delivery and Design:

- Microsoft Project
- Primavera
- SAP
- SAP Ariba
- WebBFS
- Advanced Excel
- Agile foundations
- Figma
- project coordination
- root-cause analysis

Professional Experience:

- ## Siemens Energy – Kafr Elshekh, Egypt
  IT Infrastructure Specialist & Cybersecurity Ambassador | July 2020 – Present
  - Digital enablement: Build and support low-code applications integrated with Microsoft 365 services to improve business workflows across departments.
  - User support and coaching: Mentor colleagues on security policies and best practices and provide first-line cybersecurity guidance.
  - Business collaboration: Work with operational teams to identify requirements, coordinate delivery, and support adoption of new digital tools.
  - Secure operations: Support IT infrastructure and secure service delivery for Burullus Combined Cycle Power Plant, serving 700+ users across power plants.
  - **Cost control:** Follow up IT asset costs and telecommunication invoices, control consumables, and monitor the onsite IT budget.
  - **SAP:** Use SAP Ariba to issue purchase requisitions (PR), work with queries over SAP, and serve as WebBFS Administrator.
  - **On-site Support:** Follow up 5560+ support tickets through to closure.
  - AI-related infrastructure: Supported infrastructure for the Omnivise Image Analytics camera use case, designed to capture equipment readings.
- ## Siemens – Kafr Elshekh, Egypt
  IT Infrastructure Specialist | April 2019 – July 2020
  - Managed IT infrastructure for Alburullus Combined Cycle Power Plant (4800MW).

- ### Five Builders – Benban, Aswan, Egypt
  Project Coordinator | Dec 2018 – Apr 2019
  - Coordinated the 50 MW Benban Solar Park project and reported weekly progress to stakeholders.
  - Monitored project progress and handled issues.
  - Communicated project status to stakeholders.
- ### SIEMENS Heat Transfer Technology – Free zone, Alexandria
  QA Head | Jan 2018 – Oct 2018
  - Managed QA activities for Marzahn Power Plant and South Bangkok Power Plant.
  - Prepared and reviewed quality manuals and procedures.
- ### NEM Energy Egypt – Free zone, Alexandria
  - #### QC Inspector & QA Head | 2015 – 2018
    - Conducted quality assessments for multiple power plant projects.
    - Applied visual and surface testing methods to welded joints.
  - #### Senior Document Controller | 2012 – 2015
    - Controlled project productivity and prepared inspection test plan reports.

Professional Experience:

- ### Project Services Company (PSC) – Amrieya, Alexandria
  Planner & Production Follow-up | 2009 – 2012
  - Developed production plans and monitored project productivity.
  - Built and tracked production schedules for 2 projects (Abu Qir Internal Piping, Elswedy Cement).
- ### Al-Hashemiah Contracting Company (HCC) – Amrieya, Alexandria
  Technical Office Specialist | 2007 – 2009
  - Managed technical office activities for various power plant projects.
- ### IEMSA – Damietta
  Document Controller | 2006 – 2007
  - Controlled documentation for Agrium Fertilizer project.

Projects Delivered (23):

Project management of pressure vessels and power boilers, plus power, industrial and infrastructure project work, grouped by role.

Siemens Energy (2020 – Present) – 1 project

- **Al-Burullus CCPP** (Apr 2019 – Present)

Siemens (2019 – 2020) – 1 project

- **Al-Burullus CCPP** (Apr 2019 – Present)

Five Builders (2018 – 2019) – 1 project

- **Benban Solar Park (Plot 17-3)** (Dec 2018 – Apr 2019)

Siemens Heat Transfer Technology (2018) – 2 projects

- **Marzahn Power Plant** (2018)
- **South Bangkok Power Plant** (2018)

NEM Energy Egypt – QA/QC (2015 – 2018) – 2 projects

- **BLNG Cogen II** (Feb 2015 – Dec 2015)
- **Oregon Clean Energy** (Jun 2015 – Dec 2015)

NEM Energy Egypt – Document Control (2012 – 2015) – 9 projects

- **Jazan** (Jul 2014 – Oct 2016)
- **Bandirma II** (Oct 2014 – Apr 2015)
- **San Gabriel** (Aug 2014 – Feb 2015)
- **Tanjung Uncang CCPP 120 MW** (Jan 2014 – Mar 2014)
- **Brigadier Lopez & Ensenada de Barragan** (Mar 2013 – Nov 2013)
- **Pinjarra** (Mar 2013 – Nov 2013)
- **Temple II Power Plant** (Sep 2013 – Nov 2013)
- **PP10** (Aug 2012 – Sep 2013)
- **Temple & Sherman Power Plants** (Oct 2012 – Sep 2013)

Project Services Company (2009 – 2012) – 2 projects

- **Abu Qir Internal Piping** (Mar 2010 – Jun 2011)
- **Elswedy Cement** (Nov 2009 – Dec 2009)

Al-Hashemiah Contracting Company (2007 – 2009) – 5 projects

- **Sidi Krir & El Atf Power Plants** (Feb 2009 – Oct 2009)
- **Besos V Power Plant** (Oct 2008 – Feb 2009)
- **Kerwalabityia Power Plant** (Jul 2008 – Oct 2008)
- **Darling Down Combined** (Mar 2008 – Jul 2008)
- **Mesaieed Combined (Qatar)** (Aug 2007 – Mar 2008)

IEMSA (2006 – 2007) – 1 project

- **MOPCO** (Jul 2006 – Sep 2007)

Achievements:

- **Local**
  - **ASME Re certification Participation** : [S, U, PP, & R Stamp] – 2015, 2012, 2008
  - **Documents Control Coordinator (DCC)**: Team Leader Mr. Dash, Mr. Ian Roberts
- **Global**
  - Recognized as **Lean Hero** ME for outstanding contribution to continuous improvement initiatives during Q2 2025.

Certificates by Siemens Energy Learning Platform (SELP – Courses):

- 2019:
  - Cybersec - It's up to us!
  - Data Privacy Training International
- 2020:
  - Siemens Business Conduct Guidelines
  - Cybersecurity - You are the guardian!
  - Export Control and Customs – Global Awareness
  - Siemens Antitrust Essentials
- 2021:
  - Cybersecurity Challenge – Home Office
- 2022:
  - Customer First
  - Skills for New Managers

- The New Manager's Handbook - getAbstract 4001
- Data Privacy Training Essentials
- Defensive Driving Awareness
- Cybersecurity Challenge - Think Before you Click
- Siemens Energy Business Conduct Guidelines
- Cybersecurity at Siemens Energy
- Microsoft 365 SharePoint Sites Social Engineering and Phishing
- Writing Effective E-mails
- Cyber Security
- Cybersecurity and Data Privacy Incidents
- Data Privacy in CCTV & Access Control
- Data Privacy in Contracts
- Data Privacy in HR
- Information Security
- SE Cybersecurity Scribble Phishing
- Secure Use of Social Media

2023:

- Cybersecurity Web-based Training 2023

2024:

- Emotional Intelligence
- Introduction to Power Apps
- Agile Mindset
- BCG Refresher
- CEH v12-Windows Authentication
- Annual Cybersecurity Training - Cyber Guide
- Introduction to Cybersecurity
- Networking Skills (Relationships)
- Vulnerability Management
- First Time Manager
- Root-Cause-Analyse - Fishbone-Method (TÜV)
- Web automation in Power Automate Desktop
- What is Project Management
- New Project Manager Essentials
- Manage and monitor Windows Server logs
- Export Control Basic Training
- Network Discovery Tools and Techniques
- Information Security
- Data Analysis and Root Cause Analysis in Six Sigma

- Certified Info Systems Security Professional (CISSP) Bootcamp
- Microsoft Power BI Recipes
- Getting Started with Power Query in Power BI
- Exploring SecOps Tools - Network Packet Manipulation Using Wireshark
- CompTIA Data+ Data Analysis Types & Techniques
- PM Professional Part 1 – Basic - IPMA Level (D)
- Project Manager Basic-3D
- Sharing & Collaborating on an App in Microsoft PowerApps
- What is Project Management
- First Time Manager
- Create Dashboards in Power BI
- Project Management - Project Kickoff
- Sustainability at Siemens Energy
- Ransomware Game
- Root Cause Analysis – 5 Why Method
- Learning from mistakes II
- Quality Training (GS ME SO)

2025:

- PM Professional Part 2 – Advanced - IPMA Level (D)
- UI and UX Prototyping with Figma (Skillsoft)
- Advanced Figma [Interactive Course] (Skillsoft)
- Annual Cybersecurity Training
- Mendix - Become a Rapid Developer
- Leading through Setting and Managing Priorities
- Getting Started with Python Introduction
- Introduction to Process Automation with RPA (UiPath) at GT SV
- Python Development Getting Started with Programming in Python

2026:

- Conflicts of Interest
- Smart AI in Product Management

Certificates and training courses:

- 2020:
  - Introduction to Packet Tracer – **by (Cisco Network Academy)**
- 2022:
  - Awarded Badge Introduction to PT – **by (Cisco Network Academy)**
- 2025:
  - Python Coder – **by (Kaggle.com)**
  - Kaggle Community Member – **by (Kaggle.com)**

- 2026:
  - Introduction to Python – **by (Datacamp.com)**
  - Basics for Data Analysis using Python – **by (Yanfaa.com)**
  - Introduction to Snowflake – **by (Datacamp.com)**
  - Introduction to AI for Work – **by (Datacamp.com)**
  - Learning German Level 1 – **by (Yanfaa.com)**

Skills:

- IT Infrastructure Specialist:
  - Achieve departmental goals.
  - Mentor colleagues on security policies, procedures, and best practices.
  - Maintain security awareness related to the company assessment program.
  - Follow-up with contractors, third parties, cloud services providers, and other vendors.
  - Continuously improving IT delivery and customer satisfaction by championing IT management frameworks.

- Manage and perform multi-faceted projects in conjunction with day-to-day activities.
- Stay up to date on technologies, solutions, and architectures to optimize information technology functions.
- Ensure and build the controls and processes for continuous delivery of applications, considering all stages of the process and its automations.
- Launch projects through hands-on implementation, evaluate and drive improvements to existing infrastructure.
- Develop and coordinate strategic and tactical plans to guide the implementation and management of the service desk, end-use computing, enterprise server, storage, and network infrastructure.

Cybersecurity Ambassador:

- Liaison between a local Business Unit or location and the Cybersecurity Officer responsible.
- Appointed by local Business Unit or site management.
- Supports and consults the local organization and users to comply with Information Security policies and regulations.
- Acts as “extended arms and ears” of the Cybersecurity Officer, combining Cybersecurity expertise and organizational unit internal knowledge about processes and projects.
- Serves as an entry point and 1st level contact for Cybersecurity within the respective organizational unit.
- Trained and guided by the responsible Cybersecurity Officer.

Project Coordinator:

- Coordinate project management activities, resources, equipment, and information.
- Assign tasks to internal teams and assist with schedule.
- Monitor project progress and handle any issues that arise.
- Act as the point of contact and communicate project status to all participants.
- Use tools to monitor working hours, plans, and expenditures.
- An ability to prepare and interpret flowcharts, schedules, and step-by-step action plans.

- Organizational skills including multitasking and time management.
- Familiarity with risk management and quality assurance control.
- Strong working knowledge of Primavera, Microsoft Project, and Trello.
- Sharing relevant documentation and reports with project teams.
- Providing information and regular support to stakeholders.
- Providing support to project managers and business leaders when requested.

QA Head:

- Preparation of Quality Manual.
- Assist the QA/QC Manager to issue the Manual and Procedures for Quality Manual.
- Issued and reviewed the Internal Audit under the vision of The QA/QC Manager.
- Responsible for Monitoring, verifying all QA activities.
- Responsible for the controlled distribution of this QC Manual and its revisions.

QC Inspector:

- Carry out quality assessment measures of all the products ready to be shipped and incoming raw materials.
- Monitor the production flow between assembly and welding processes.
- Applying the visual inspection (VT) of the welded joints.
- Applying the surface testing methods (PT, MT) over the welded joints to cover the ASME I and B31.1 system percentages.
- Reporting the above production workflow to the direct management.

Senior Document Controller:

- Assist Operation Manager in controlling the project productivity.
- Assist the QA/QC Manager to issue the Manual and Procedures for ASME.
- Control all Non-Destructive Percentage reference ASME.
- Prepare the P-Forms (P4, P4A, P6, and Rubbing) and Inspection Test Plan Reports.
- Cover the NDE Percentage and issue requests/backlogs for PT, MT, RT, and UT.
- Prepare and Review the Final Documents and handover with Authorized Inspector.

- Controlling the Non-Conformity NCRs for all projects.

- ## Planner & Production Follow-up:
  - Perform a production plan/schedule for the project.
  - Estimate the manpower distribution.
  - Monitoring the project productivity.
  - Taking corrective actions to meet the schedule.
  - Prepare all computer programs needed to control and follow-up the project.
- ## Technical Office Specialist:
  - Manage technical office activities for power plant projects.

Infrastructure Projects:

- **Internet service relocation**

  Coordinated with local internet service providers for the relocation from the EPC to the new O&M Administration building, which involved task planning and upgrading services.

- **MDF Power Backup Plan**
  Designed and deployed enhanced UPS battery infrastructure, increasing power back up from 30 minutes to 6 hours.

- **New Building Renovation**

  After decommissioning the old building's network in 2019, our business decided to reactivate the facility with a new infrastructure to support our field service employees, equipping them for all future outages.

- **Camp Housing Renovation**

  Maintenance and renovation work at the camp housing, handled as a separate scope from the New Building Renovation project.

- **Install AI Cameras with related infrastructure**

  The OIA (Omnivise Image Analytics) project represents a new demand from O&M Management in Egypt, focusing on enabling the AI camera model to capture readings from equipment.

Developed Applications:

- Created Application for Control Projects Related to 4 Departments (ver.1)
    - (Tech. Office – Quality Control – Material Control – Planning) for AL HASHEMIAH Company.
- Created an Application for Control Projects Planning Department for PSC Company.

- Created Human Resourcing Application for Following Manpower for PSC Company.
- Created Application for Control Projects Related to 3 Departments (ver.2)
    - (Tech. Office – Quality Control – Material Control) for NEM ENERGY EGYPT.
- Created Application for Control Projects Related to 5 Departments (ver.3 and ver. 4)
    - (Tech. Office – Quality Control – Material Control – Planning – Management) for SIEMENS HTT.
- **Low Code Applications in (Siemens Energy)**

  (Integrated Microsoft Tenant with the following tools) [SharePoint, Teams, Outlook, Planner and more]

    - **IT O&M Burullus SharePoint site (**Collaborating tool that delivers the ease of use for site members)
    - **Burullus IT Tools** (Contains all Developed applications interface)
    - **Guest Internet Voucher System** (Generate voucher codes through integration with the firewall to enable dynamic interaction for end-users with internet services)
    - **Employee Recognition Program**

      (EMD Application includes 4 powerplants New Capital, Beni Suef, Midelec and Burullus)

        - This tool enables employees to browse and select the appropriate recognition based on START platform categories and furnish details of the nominee's achievements, complete with specific instances, results, and the influence of their work.
    - **IT Facilities System**
        - Provide the end-user interface to request IT asset/facilities to streamline his activities.
        - Acting as IT Warehouse tool to manage the IT Items inside the department.
    - **Event Organizer Application** (Provide ease of use for site members to manage their large/small events on site with other departments)
    - **Car route change request Application** (Provide systematical notification system with BA and transportation team to manage their routes on site)
    - **Heavy Equipment Reservation (**Site Team Reservation tool to book the Heavy Equipment)
    - **Operation Start Card** (To manage all Permit to Work activities with all other departments)
    - **3D Printing Model** (Managing Internal/External requests and monitor activities, consumables and cost)
    - **Learning Management System** (Controlling Internal/External Training with all employees on-site)

- **Low Code Applications in (Siemens Energy)**
    - **EHS Collaboration Systems**
        - **EHS Incentive Program**

          Collaboration with the EHS team to implement a program that addresses all digital needs to meet their requirements and showcase insights and analysis aimed to promote workplace safety.
        - **PPE Collecting Tool**

          Collaboration with the EHS team to implement a digital platform for collecting PPE sizes and information from all site members.
        - **EHS Lifting Equipment**

          Collaboration with the EHS team to manage and track all lifting equipment and accessories on site. Divided into sub modules for Equipment that will Improves safety, compliance, and maintenance efficiency through centralized digital records
        - **EHS Safety Datasheet**

          Collaboration with the EHS team to create a Safety Data Sheet app with QR codes, allowing all site users to quickly scan and access the relevant documentation. Enhances safety, efficiency through centralized digital records and easy information access
        - **EHS Task Management System**

          The EHS (Environment, Health, and Safety) Task Management System is a digital platform designed to streamline the planning, assignment, tracking, and closure of all EHS-related tasks within the power plant. It ensures that safety actions, inspections, corrective measures, and compliance activities are managed efficiently and transparently across all departments.
