Mohamed Elkadi

Project & Digital Delivery Lead | Industrial, Infrastructure & Digital Projects

Cairo, Egypt | linkedin.com/in/melkadi | melkadi.website

CV last updated: 2026-11-11

PROFESSIONAL SUMMARY

Project & Digital Delivery Lead with 20+ years of experience across industrial projects, quality, planning, and enterprise IT. Delivers infrastructure and digital projects for 700+ users across multi-site power plant environments, coordinating teams, vendors, and stakeholders from planning to handover, and serves as the site Cybersecurity Ambassador.

Earlier experience in document control, quality, and planning provides the operational foundation for practical, well-governed delivery, supported by Microsoft 365 and Power Platform solutions and responsible AI adoption. Supports AI awareness, digital adoption, and end-user enablement through coaching, knowledge sharing, and practical guidance on Microsoft technologies.

CORE SKILLS

Infrastructure & Operations: IT Infrastructure Design, IT Infrastructure Management, Infrastructure Services, Infrastructure Management, Technical Support, Internet Information Services (IIS), Firewalls, Windows Firewall, Ricoh Printers, Xerox Printers, ITIL v4 Foundation

Power Platform & Digital: Power Apps, Power Automate, Power BI, Power Query

Data & Programming: SQL, Database Queries, Snowflake, Python, Django

AI Tools: Anthropic Claude, Claude Skills, Prompt Engineering

Project Delivery: Project Delivery, Stakeholder Management, Delivery & Outcome Focus, Product Thinking, Agile & Scrum Fundamentals, Jira, Contractual

Project & Business Tools: MS Project, Primavera, SAP, SAP Ariba, WebBFS, Advanced Excel

Quality & HSE: ISO 14001, ISO 45001

Documentation & Records: Electronic Document Management System (EDMS), Archiving, Manuals, Online Help, Technical Documentation

Languages: Spoken English

Also: AI Adoption & Change Enablement, User Enablement & Coaching, AI Use-Case Identification, Microsoft 365, SharePoint, Teams, Outlook, Planner, Business Process Automation, Azure Fundamentals, Cloud Adoption, Cybersecurity, Data Privacy, Information Security, Vulnerability Management, Linux, Windows, Networking, Root-Cause Analysis, Project Coordination, UiPath, Power Automate Desktop, Tableau, Figma, VBA, JavaScript, PHP, HTML, CSS, Git, MySQL, PostgreSQL, Omnivise Image Analytics

PROFESSIONAL EXPERIENCE

IT Infrastructure Specialist & Cybersecurity Ambassador | Siemens Energy, Kafr Elshekh, Egypt | July 2020 – Present

- **Digital enablement:** Build and support low-code applications integrated with Microsoft 365 services to improve business workflows across departments.
- **User support and coaching:** Mentor colleagues on security policies and best practices and provide first-line cybersecurity guidance.
- **Business collaboration:** Work with operational teams to identify requirements, coordinate delivery, and support adoption of new digital tools.
- **Secure operations:** Support IT infrastructure and secure service delivery for Burullus Combined Cycle Power Plant, serving 700+ users across power plants.
- **Cost control:** Follow up IT asset costs and telecommunication invoices, control consumables, and monitor the onsite IT budget.

- **SAP:** Use SAP Ariba to issue purchase requisitions (PR), work with queries over SAP, and serve as WebBFS Administrator.
- **On-site Support:** Follow up 5560+ support tickets through to closure.
- **AI-related infrastructure:** Supported infrastructure for the Omnivise Image Analytics camera use case, designed to capture equipment readings.

IT Infrastructure Specialist | Siemens, Kafr Elshekh, Egypt | April 2019 – July 2020

- Managed IT infrastructure for Alburullus Combined Cycle Power Plant (4800MW).

Project Coordinator | Five Builders, Benban, Aswan, Egypt | Dec 2018 – Apr 2019

- Coordinated the 50 MW Benban Solar Park project and reported weekly progress to stakeholders.
- Monitored project progress and handled issues.
- Communicated project status to stakeholders.

QA Head | SIEMENS Heat Transfer Technology, Free zone, Alexandria | Jan 2018 – Oct 2018

- Managed QA activities for Marzahn Power Plant and South Bangkok Power Plant.
- Prepared and reviewed quality manuals and procedures.

QC Inspector & QA Head | NEM Energy Egypt, Free zone, Alexandria | 2015 – 2018

- Conducted quality assessments for multiple power plant projects.
- Applied visual and surface testing methods to welded joints.

Senior Document Controller | NEM Energy Egypt, Free zone, Alexandria | 2012 – 2015

- Controlled project productivity and prepared inspection test plan reports.

Planner & Production Follow-up | Project Services Company (PSC), Amrieya, Alexandria | 2009 – 2012

- Developed production plans and monitored project productivity.
- Built and tracked production schedules for 2 projects (Abu Qir Internal Piping, Elswedy Cement).

Technical Office Specialist | Al-Hashemiah Contracting Company (HCC), Amrieya, Alexandria | 2007 – 2009

- Managed technical office activities for various power plant projects.

Document Controller | IEMSA, Damietta | 2006 – 2007

- Controlled documentation for Agrium Fertilizer project.

PROJECTS DELIVERED (23)

Project management of pressure vessels and power boilers, plus power, industrial and infrastructure project work, grouped by role.

Siemens Energy (2020 – Present) – 1 project

- Al-Burullus CCPP (Apr 2019 – Present)

Siemens (2019 – 2020) – 1 project

- Al-Burullus CCPP (Apr 2019 – Present)

Five Builders (2018 – 2019) – 1 project

- Benban Solar Park (Plot 17-3) (Dec 2018 – Apr 2019)

Siemens Heat Transfer Technology (2018) – 2 projects

- Marzahn Power Plant (2018)
- South Bangkok Power Plant (2018)

NEM Energy Egypt, QA/QC (2015 – 2018) – 2 projects

- BLNG Cogen II (Feb 2015 – Dec 2015)
- Oregon Clean Energy (Jun 2015 – Dec 2015)

NEM Energy Egypt, Document Control (2012 – 2015) – 9 projects

- Jazan (Jul 2014 – Oct 2016)

- Bandirma II (Oct 2014 – Apr 2015)
- San Gabriel (Aug 2014 – Feb 2015)
- Tanjung Uncang CCPP 120 MW (Jan 2014 – Mar 2014)
- Brigadier Lopez & Ensenada de Barragan (Mar 2013 – Nov 2013)
- Pinjarra (Mar 2013 – Nov 2013)
- Temple II Power Plant (Sep 2013 – Nov 2013)
- PP10 (Aug 2012 – Sep 2013)
- Temple & Sherman Power Plants (Oct 2012 – Sep 2013)

Project Services Company (2009 – 2012) – 2 projects

- Abu Qir Internal Piping (Mar 2010 – Jun 2011)
- Elswedy Cement (Nov 2009 – Dec 2009)

Al-Hashemiah Contracting Company (2007 – 2009) – 5 projects

- Sidi Krir & El Atf Power Plants (Feb 2009 – Oct 2009)
- Besos V Power Plant (Oct 2008 – Feb 2009)
- Kerwalabityia Power Plant (Jul 2008 – Oct 2008)
- Darling Down Combined (Mar 2008 – Jul 2008)
- Mesaieed Combined (Qatar) (Aug 2007 – Mar 2008)

IEMSA (2006 – 2007) – 1 project

- MOPCO (Jul 2006 – Sep 2007)

EDUCATION

- Institute of Computer Science – 2003–2004 | Graduation: Excellence
- Diploma of Technician Commerce – 2001

CERTIFICATIONS

- ISO 27001:2022 Lead Auditor, Information Security Management System – 2026
- Agile Product Owner Role: Techniques & Foundations – 2026
- Refreshing Integrated Management System ISO 9001:2015 by QI TUV Nord
- PMP Traditional and PMI – Agile Certified Practitioner – training completed, 2025
- IPMA Level D (PM Professional Basic/Advanced by Siemens Energy) – 2024–2025
- ITIL v4 Service Management Foundation Certificate – 2024
- AZ-900 Microsoft Azure Fundamentals – training completed, 2024
- AZ-104 Microsoft Azure Administrator – training completed, 2024
- Linux Administration Bootcamp – 2024
- Certified Cybersecurity – Fundamentals, ISC2 Candidate (training completed) – 2023
- Programming Course: One Million Final Phase (Full Stack), Udacity – 2019
- Self-based Online Courses: HTML, CSS, PHP, JavaScript, SQL – 2017
- Quality Control Management, Internal Audit Course – 2014–2016
- NDE Methods: PT, MT, RT, UT, VT – 2015–2018
- Auditor/Lead Auditor Quality Management System ISO 9001:2015 by QI Institute
- JOTUN Protective Coating Paint School – attendance

ACHIEVEMENTS

- Recognized as Lean Hero ME for outstanding contribution to continuous improvement initiatives – Q2 2025.
- ASME re-certification participation (S, U, PP & R Stamp) – 2015, 2012, 2008.
- Documents Control Coordinator (DCC) team leader.

LANGUAGES

Arabic (Fluent) | English (B1)

INFRASTRUCTURE PROJECTS

- **Internet service relocation:** Coordinated with local internet service providers for the relocation from the EPC to the new O&M Administration building, including task planning and service upgrades.
- **MDF power backup plan:** Designed and deployed enhanced UPS battery infrastructure, increasing power backup from 30 minutes to 6 hours.
- **New building renovation:** Reactivated the facility after the old building network was decommissioned in 2019, with new infrastructure to support field service employees during future outages.
- **Camp housing renovation:** Maintenance and renovation work at the camp housing, handled as a separate scope from the new building renovation.
- **AI camera installation with related infrastructure:** Omnivise Image Analytics (OIA) project, a new demand from O&M Management in Egypt, enabling the AI camera model to capture readings from equipment.

DEVELOPED APPLICATIONS

Earlier roles

- Application for control of projects across 4 departments (Technical Office, Quality Control, Material Control, Planning) for Al-Hashemiah Company (ver. 1).
- Application for the projects planning department for PSC Company.
- Human resources application for following manpower for PSC Company.
- Application for control of projects across 3 departments (Technical Office, Quality Control, Material Control) for NEM Energy Egypt (ver. 2).
- Application for control of projects across 5 departments (Technical Office, Quality Control, Material Control, Planning, Management) for Siemens HTT (ver. 3 and ver. 4).

Low-code applications, Siemens Energy | Microsoft 365 tenant: SharePoint, Teams, Outlook, Planner

- **IT O&M Burullus SharePoint site:** collaboration tool for site members.
- **Burullus IT Tools:** interface for all developed applications.
- **Guest Internet Voucher System:** generates voucher codes through firewall integration for dynamic end-user internet access.
- **Employee Recognition Program:** used across 4 power plants (New Capital, Beni Suef, Midelec, Burullus); lets employees select recognition categories from the START platform and document nominee achievements, results, and impact.
- **IT Facilities System:** end-user interface to request IT assets and facilities, also acting as the IT warehouse tool.
- **Event Organizer Application:** manages large and small site events across departments.
- **Car route change request application:** notification system between BA and the transportation team for site routes.
- **Heavy Equipment Reservation:** site team tool to book heavy equipment.
- **Operation Start Card:** manages Permit to Work activities across departments.
- **3D Printing Model:** manages internal and external requests and monitors activities, consumables and cost.
- **Learning Management System:** controls internal and external training for all on-site employees.

EHS collaboration systems | built with the EHS team

- **EHS Incentive Program:** digital program with insights and analysis promoting workplace safety.
- **PPE Collecting Tool:** collects PPE sizes and information from all site members.

- **EHS Lifting Equipment:** manages and tracks lifting equipment and accessories, with centralized digital records for safety, compliance and maintenance.
- **EHS Safety Datasheet:** Safety Data Sheet app with QR codes for quick access to documentation.
- **EHS Task Management System:** plans, assigns, tracks and closes EHS tasks (safety actions, inspections, corrective measures, compliance) across all departments.

ROLE RESPONSIBILITIES

IT Infrastructure Specialist

- Achieve departmental goals.
- Mentor colleagues on security policies, procedures, and best practices.
- Maintain security awareness related to the company assessment program.
- Follow up with contractors, third parties, cloud service providers, and other vendors.
- Improve IT delivery and customer satisfaction by championing IT management frameworks.
- Manage and perform multi-faceted projects alongside day-to-day activities.
- Stay up to date on technologies, solutions, and architectures to optimize IT functions.
- Build controls and processes for continuous delivery of applications and their automations.
- Launch projects through hands-on implementation and drive improvements to existing infrastructure.
- Develop and coordinate strategic and tactical plans for the service desk, end-user computing, enterprise server, storage, and network infrastructure.

Cybersecurity Ambassador

- Liaison between a local business unit or location and the responsible Cybersecurity Officer, appointed by local management.
- Supports and consults the local organization and users to comply with information security policies and regulations.
- Acts as the extended arms and ears of the Cybersecurity Officer, combining cybersecurity expertise with internal knowledge of processes and projects.
- First-level contact for cybersecurity within the organizational unit; trained and guided by the Cybersecurity Officer.

Project Coordinator

- Coordinate project management activities, resources, equipment, and information.
- Assign tasks to internal teams and assist with schedules.
- Monitor project progress, handle issues, and communicate status to all participants.
- Use tools to monitor working hours, plans, and expenditures.
- Prepare and interpret flowcharts, schedules, and step-by-step action plans.
- Apply risk management and quality assurance control; share documentation and reports with project teams.
- Working knowledge of Primavera, Microsoft Project, and Trello.

QA Head

- Prepared the Quality Manual and procedures with the QA/QC Manager.
- Issued and reviewed internal audits.
- Monitored and verified all QA activities.
- Controlled distribution of the QC Manual and its revisions.

QC Inspector

- Carried out quality assessment of products ready to ship and incoming raw materials.
- Monitored production flow between assembly and welding.
- Applied visual inspection (VT) and surface testing (PT, MT) of welded joints to cover ASME I and B31.1 requirements.
- Reported production workflow to management.

Senior Document Controller

- Assisted the Operation Manager in controlling project productivity.
- Assisted the QA/QC Manager in issuing manuals and procedures for ASME.
- Controlled Non-Destructive Examination (NDE) percentages per ASME and issued requests and backlogs for PT, MT, RT, and UT.
- Prepared P-Forms (P4, P4A, P6, Rubbing) and Inspection Test Plan reports.
- Prepared and reviewed final documents and handover with the Authorized Inspector.
- Controlled non-conformity reports (NCRs) for all projects.

Planner & Production Follow-up

- Produced production plans and schedules and estimated manpower distribution.
- Monitored productivity and took corrective actions to meet the schedule.
- Prepared the computer programs needed to control and follow up projects.

TRAINING COURSES AND LEARNING RECORDS

Siemens Energy Learning Platform (SELP) courses

2019: Cybersec - It's up to us!; Data Privacy Training International

2020: Siemens Business Conduct Guidelines; Cybersecurity - You are the guardian!; Export Control and Customs - Global Awareness; Siemens Antitrust Essentials

2021: Cybersecurity Challenge - Home Office

2022: Customer First; Skills for New Managers; The New Manager's Handbook (getAbstract); Data Privacy Training Essentials; Defensive Driving Awareness; Cybersecurity Challenge - Think Before You Click; Siemens Energy Business Conduct Guidelines; Cybersecurity at Siemens Energy; Microsoft 365 SharePoint Sites Social Engineering and Phishing; Writing Effective E-mails; Cyber Security; Cybersecurity and Data Privacy Incidents; Data Privacy in CCTV & Access Control; Data Privacy in Contracts; Data Privacy in HR; Information Security; SE Cybersecurity Scribble Phishing; Secure Use of Social Media

2023: Cybersecurity Web-based Training 2023

2024: Emotional Intelligence; Introduction to Power Apps; Agile Mindset; BCG Refresher; CEH v12 - Windows Authentication; Annual Cybersecurity Training - Cyber Guide; Introduction to Cybersecurity; Networking Skills; Vulnerability Management; First Time Manager; CISSP Bootcamp; Microsoft Power BI Recipes; Getting Started with Power Query in Power BI; Exploring SecOps Tools - Network Packet Manipulation Using Wireshark; CompTIA Data+ Data Analysis Types & Techniques; PM Professional Part 1 Basic - IPMA Level D; Project Manager Basic-3D; Sharing & Collaborating on an App in Microsoft PowerApps; Root-Cause-Analyse - Fishbone Method (TÜV); Web automation in Power Automate Desktop; What is Project Management; New Project Manager Essentials; Manage and monitor Windows Server logs; Export Control Basic Training; Network Discovery Tools and Techniques; Information Security; Data Analysis and Root Cause Analysis in Six Sigma; Create Dashboards in Power BI; Project Management - Project Kickoff; Sustainability at Siemens Energy; Ransomware Game; Root Cause Analysis - 5 Why Method; Learning from Mistakes II; Quality Training (GS ME SO)

2025: PM Professional Part 2 Advanced - IPMA Level D; UI and UX Prototyping with Figma (Skillsoft); Advanced Figma (Skillsoft); Annual Cybersecurity Training; Mendix - Become a Rapid Developer; Leading through Setting and Managing Priorities; Getting Started with Python Introduction; Introduction to Process Automation with RPA (UiPath); Python Development: Getting Started with Programming in Python

2026: Conflicts of Interest; Smart AI in Product Management

Other certificates and training

2020: Introduction to Packet Tracer (Cisco Networking Academy)

2022: Introduction to Packet Tracer badge (Cisco Networking Academy)

2025: Python Coder and Kaggle Community Member (Kaggle)

2026: Introduction to Python, Introduction to Snowflake, Introduction to AI for Work (DataCamp); Basics for Data Analysis using Python, Learning German Level 1 (Yanfaa)
